

Health and Safety Policy Statement

SC Design Consulting Ltd recognizes that the management of health, safety and welfare plays a key role in the performance of our business. Through development of an active safety culture we are committed to providing and maintaining the highest standards of working conditions, equipment and systems of work for our employees and protecting those who may be affected by our activities.

- In pursuit of this SC Design Consulting Ltd will comply with the Health and Safety at Work etc Act 1974 and subordinate legislation relevant to our activities including the Construction (Design and Management) Regulations 1994 and Regulation (Amended) 2000 with a view to continuous progressive improvement in performance standards.
- Health and safety is a line management responsibility and all employees are encouraged to participate in the proactive development and implementation of our policies and procedures. This will be facilitated through employee consultation via delegated representatives and open systems of communication.
- Responsibility for the development and implementation of our policy rests with the director responsible for safety. Simon Chapman who will ensure it is supported by the provision of financial, technical and human resources to enable employees to receive the necessary information, instruction, training and supervision. Specific safety responsibilities, arrangements and procedures are contained within our safety manual and updated from time to time.
- Our policy and its implementation is monitored and reviewed on a regular basis with health and safety on the agenda of all management and board meetings.

Simon Chapman
Managing Director
